# **Infrastructure Facilities & Amenities**

## ***Library***

The college has the excellent library and information center which acts as a primary source of knowledge and information. It is spacious, well-lit with natural light, and provides a comfortable and encouraging reading environment to its readers. The knowledge bank is well equipped with modern facilities and resources in the form of reference and text books, video cassettes, journals, back volumes of journals, periodicals, newsletters, pharma magazines and E-books. The library also provides facility of a copier for students. An 'e-library' equipped with broadband internet facility is extended to the students. The library is open for the extended timings for the students to avail maximum use of it.

## ***Computer Lab***

Students have the privilege of availing computer facilities at the Gurunanak Technical Institute. The infrastructure includes state-of-the-art computer laboratory. About 25 advanced computers are provided that are sufficiently equipped with the latest tools and software along with Printers & Scanners.

## **Wi Fi Campus / e-Classrooms**

Today is the “Era of Web Information” as Internet plays backbone for every aspect of life. Understanding the need and importance of Internet in the field of education is supported by round the clock High Speed Internet Connectivity with the help of which the students can surf the Web and can enhance their knowledge as well as extract unlimited e-Information. In addition to this, the students are also being provided Wireless connectivity (Wi-Fi) using which the students can access online information anywhere in and around the campus using their Laptops Spacious e-classrooms with excellent ambience and equipped with all the modern teaching aids like LCD, Multi Media Projectors, etc. are available.

## ***Drug Garden***

The college is maintaining a herbal garden in the campus. The objective of establishing this garden is to maintain a conservatory of the most common and important species of medicinal and aromatic plants which are being used in day-to-day primary health care. All the plant species were authentically identified by expert taxonomists, labeled and in many cases their therapeutic values are also highlighted. Around 100 species of medicinal plants are there in this garden.

## ***Girl's Common Room***

## ***Boy's Common Room***
